The Cosmic Clock

THE MERCURY MINUTE

The Moon rules the emotions and tone of the day. For this reason, your awareness of its location can give you a better understanding of influences at play. The Planets signify the mythological opportunities for each day.

(All times PST)

I use 00 degrees of the Sun Sign that the Sun is in on any given day.

Monday, August 24: The Moon is in Libra as the day begins, and today the Moon has many positive aspects with several planets. **The Moon enters Scorpio** and there is a shift towards an inner intensity as the day unfolds. Passion and a silent awareness are going to be partners for a few days. Be aware for extremes in your daily activities, and by staying aware of this fact you can avoid any disruptions in your life.

Today intimate feelings bring you closer to the one you love. Life is like the ocean and every wave brings new and exciting possibilities.

Magic is the mystery of life as it presents itself at all times. Once you let go of the ego, then life takes on a New vista of possibilities.

Renouncing wholeheartedly all selfish desires and expectations, use your will to control the senses. Little by little become stilled in t h e Self. - Bhagavad Gita 6:23-25

Monday, August 24, that's your Mercury Minute.

Tuesday, August 25: The Moon is in Libra all day. Mars enters Cancer at 10:15 a.m. Mercury enters Libra at 1:18 p.m. and it's unusual to have two planets moving into different signs on the same day. This can only mean one thing: an important change is here and changing what is going on in your life! **Mercury in Libra is square to Mars in Cancer at 8:57 p.m.** Don't allow disagreements to disturb the day. It is a time for flowing with what is being presented. Life is about what you choose to do. For the best results, make it a day for diplomacy.

When one or two planets move into a new astrological sign, there is a tendency for disruption in your daily life.

Change is not easy for anyone, but it is the presence of the most important gift of all. Change and presence are two of the more Sacred elements in life.

*“When the eyes of the soul looking out meet the eyes of God looking in, heaven has begun right here on this earth.” A.W. Tozer, **The Pursuit of God** ~ Tuesday, August 25, that's your Mercury Minute.*

Wednesday, August 26: The Moon is in Scorpio as the day begins. The Moon enters Sagittarius later in the day at 8:16 p.m. PDT, and you're in the mood to get out of the house or you feel restless. Venus enters Leo at 9:12 a.m. and romance and passion are highlighted for several weeks. **Mercury in Libra is square to Pluto in Capricorn at 9:09 a.m.** and don't misjudge a circumstance before you have the facts. Pay attention, and avoid verbal pit-falls and then insight can arrive when you least expected. **Mars in Cancer is opposite Pluto in Capricorn at 1:35 p.m.** and beware of power struggles that don't concern you!

Truth and Change are two sublime qualities that express the essence of the wonderment of “God!” The fact that man, is still unsure about the nature of his own experience, indicates the mystery that belies all of Mankind is eternal.

This is the truth. There is nothing to accept, Nothing to reject, Nothing to dissolve. - Ashtavakra Gita 6:1

Thursday, August 27: The Moon is in Sagittarius all day. Venus feels under the weather so make sure you keep a sweet deposition for smooth sailing with your partner. An open heart leads to Spiritual connections and personal illumination. When challenges arise see them as possibilities that can bring you more than you could have imagined.

This is a quiet mystical day that surprises you, and if you listen carefully, change makes itself know in a surprising moment.

The concept of expansion is the fabric of the day. You'll see your flower unfold and a stress level occurs that brings you insight. Everything is expressing itself, all the time with everything. Ontology gone Wild!!!

Each form, each particle, is a Buddha. One form is all Buddhas. All forms, all particles, are all Buddhas. All forms, sounds, scents, feelings, and phenomena are also like this, each filling all fields. Pai-chang "The Pocket Zen Reader," Thursday, August 27, that's your Mercury Minute.

Friday, August 28: The Moon is in Sagittarius all day. Mercury in Libra is sextile to Venus in Leo at 6:26 a.m. PDT, and it's a time for rest and you'll want to take it easy as soon as the workday comes to a close. Catching up on reading would be a good way to use this energy. A smooth evening is in the works, and all you have to do is flow with life.

It would be good to consider your daily activities as lessons in living with the harmony that is not present, but it can be experienced by paying attention to what is important. Peace is another name for God!

Think of today as a way into another dimension, one that is faster than now and slower than the past, and it keeps you aware of living in eternity! Peace is inevitable, and all roads lead to Peace on Earth!

There never was a good war or a bad peace. ~ Benjamin Franklin Friday, August 28, that's your Mercury Minute.

Saturday, August 29: The Moon is in Sagittarius as the day begins and then the Moon enters Capricorn at 7:44 a.m. PDT., and today work can creep up on you. Make sure to make time for just communing with nature or the sacred space from within. A real mixed bag of energy, but with a balanced approach you'll have time for play later in the day. All great teachers have warned mankind, about the fundamental problem concerning the concept of fear!

Everything you do and choice to think is your responsibility and no one else's. To live a life that is based on Freedom is to live a life without fear, or you are slave to that, which you despise, which is ignorance.

You are home in this mystical experience and your birthright is Freedom, which is the recognition of the beginning and the end. The Alpha Omega!

*We lose our freedoms at the altar of fear. ~ Kahlil Gibran

Sunday, August 30: The Moon is in Capricorn all day! To be home is welcomed. Going out to brunch with friends is welcomed, and whatever you decide, choose gladly. You feel the trappings of yesterday, which reverberate in the halls of your mind. A unique key and lock are stillness and silence. They are the window and the door to Enlightenment. To know is not to be in a state of unknowing, but to be in a state of, be, that brings about the knowing...

Change is not easy for anyone, but it is the presence of the most important gift of all; which is the concept of Divinity. Change and presence are two of the most Sacred elements of this Matrix. Know thy self, is the first position to light!
